# SOLUTIONS FOR SPIRITS

As a specialist and leader in designing and manufacturing metal closures, we provide our customers with innovative and customized solutions.

## WHEREVER YOU ARE

with the aim to be **very close to our customers**, our production facilities and sales offices are placed **worldwide**.

## NEW FOR YOU

every innovation comes from the desire to **improve your product**. As tireless innovators, we're developing special designs for all customers who are looking for a **differentiation** and believe in closure design as an important element to **enhance the image of their own brands**.

## MORE THAN A CLOSURE

we are focused not only on providing a product with excellent quality and technical performance, but also to support our customers **in creating an identity** of their own brands. We design customized closures in an infinite range of colors, shapes, sizes and materials to meet **even your highest expectations**.

## NOT SIMPLY FOR SEALING

our solutions have the great ambition to dress up your final package.

# ESPRITBONNET

The Espritbonnet closure is much more than a screw cap. It presents an **elegant and sophisticated look**, by combining the functionality of a plastic cap with the unmatched appearance of metal.

It's a three-piece cap made from a metallic shell, a plastic insert, and a liner.

The shell can be produced in either aluminium or tinplate with limitless colors and graphics. Embossing is also an option.

More protection to your brands with the **tamper-evident band** version.

## WHAT'S GOOD

- ✓ **Smooth** no visible threads
- ✓ **Metallic** look and touch
- ✓ **Smart** flat top shape and fashionable appearance

## ALSO

- ✓ tamper-evident band version
- ✓ non refillable fitment available (*pick & place application*)
- ✓ screw-on application
- ✓ printing and embossing decoration

# MOONCAP

## THE MOST ATTRACTIVE CLOSURE FOR SPIRITS IN JARS.

This Continuous Thread closure provides a premium package presence to any product and preserves the flavor of products thanks to **superior barrier qualities**.

**Easy to open** and re-close, this closure will be the preferred choice of consumers who have become highly educated on **sustainability**, recycling and reuse of products and packaging.

We are able to produce innovative and customized sizes, shapes and profiles beyond the wide range of closures already available.

You can enhance the premium appearance of your own packaging by customizing the design with "high end" multicolor printing, embossing or debossing.

Size: 70G

GPI finish 70/450 - 70/460 or 70/470

Wide range of diameters and liners available.

# Tecnocap Group

## YOUR GLOBAL PARTNER FOR A METAL CLOSING SYSTEM

Tecnocap Group is a worldwide metal packaging manufacturer specialized in Metal Closures for glass jars and plastic containers. The group is one of the biggest producers of Tinplate and Aluminum closures for some of the world's best known consumer brands in food, beverages, spirits, cosmetics and pharmaceuticals. Tecnocap Group is a customer driven company, committed to provide the highest value for its customers by realizing the perfect closure: an ideal combination of appeal, functionality, sustainability and innovation.

## ALWAYS ONE STEP AHEAD

Constantly evolving technologies and tailored engineering projects are key factors which drive the Tecnocap market reputation and business growth. The group heavily invests in improving productive performances, focusing on total quality management and lean manufacturing principles. With a wide network of specialized centers, Tecnocap's technical team boasts problem solving skills and is engaged in advising, training and supporting clients in a large number of key markets worldwide.

## CONTINUOUS FOCUS ON CUSTOMIZATION AND INNOVATION

Lithography, embossing, debossing, perforations and beyond, have enabled Tecnocap Group to become a pioneer in design and a leading manufacturer of customized closures in the world. The group developed a dedicated team, which works with customers to improve existing products and develop new designs and materials.

## OUR COMMITMENT FOR A SUSTAINABLE FUTURE

Sustainability is a key point for all our activities and strategic decisions. We're keen to work closely with our customers to support them in reaching their sustainability targets by providing "responsible packaging solutions".

### LITHOGRAPHY

Coating and printing processes protect the substrate of the cap against rust, scuffs and corrosion in general and provide high customized finishes reproducing any kind of desired texts, images and effects.

### METAL CLOSURES

Metal closures are the trump card for a successful food packaging; they are essential for a proper hermetic seal and deliver eye-catching visual appeal while also extending shelf life.

### TECHNICAL SERVICE SUPPORT

The company has a strong performance record in problem solving skills thanks to a wide network of specialized teams all over the world.

## A CLOSING SYSTEM

### MACHINES AND LINER/COMPOUND

Tecnocap's Capping Machines are in-house designed and assembled for the automatic sealing of closures/ Caps on bottles and jars, installed directly at customers facilities.

### INNOVATION

Team of engineers and designers is constantly engaged in researching new products, textures, compound formulas, special finishing, technologies and sustainable materials.
